ПРОСТОТВОРНО ИЗЛОЖЕНИ РАЗСЪЖДЕНИЯ И ЗАКЛЮЧЕНИЯ

ПРОЧЕТЕНО НА 10. II. 1926 Г. ВЪВ ЗАСЕДАНИЕТО НА БЪЛГАРСКОТО ХИМИЧЕСКО ДРУЖЕСТВО ВЪВ СОФИЯ

. . .und alsolautet der Ofenbarungsgrundsatz:

Das All in seiner absoluten Wirklichkeit stellt ein vergehendes Werden vor, in welchem jede mathematische Verifikation einer Theorie schon im Erstehungsmomente samt der Theorie weggefegt wird . . .

Die Wirklichkeit lässt sich mathematisch nicht verifizieren ! . . .

. . .и тъй основният закон на откровението гласи:

Битието във самата действителност представлява непрекъснато изчезващо обновление, което помита всека теория, заедно със всички нейни математически доказателства още във самото им начинание! . . .

Истината и математически доказателства съ несъвместими ! , .
